

light up the darkness

f c g
you shine brighter than everything you've created
am f c g
your yoke is lighter than the weight of the curse you've lifted

f c g
this is we love you - to you our lives we raise
am f c g
this is we love you - here our lives to you we raise

f c g
we want to see your kingdom come
dm
and light up the darkness here
f c g dm
make us your instruments of love to bless the world
f c g
fill us up so your love will overflow
dm f
your kingdom come to earth
c g
and light up the darkness here

f c g
you are king of kings and greater than the greatest
am f c g
you give purpose to these lives we would've wasted
